EVANDOLF C. MORA

WEB AND GRAPHIC DESIGNER

PROFESSIONAL SUMMARY

I'm a creative and detail-oriented designer with experience in graphic design and an expanding background in web design and development. I build interactive and user-focused web projects while continuously strengthening my JavaScript skills through practical projects and ongoing learning. My expertise includes visual communication, branding, and user-centered design, with a passion for creating clean, engaging, and meaningful digital experiences. I'm highly motivated to grow professionally, improve my technical skills, and contribute to impactful projects and collaborative teams.

WORK EXPERIENCE

Tribute Technology

Web Designer II

Mandaluyong City, Metro Manila.
Feb 2024 - Present

- Designed and implemented responsive web interfaces using a combination of CMS builders and custom-coded solutions with HTML, CSS, and JavaScript, improving functionality, usability, and overall user experience at Tribute Technology.
- Collaborated with cross-functional teams to create and maintain visually consistent, user-centered web pages, ensuring responsive performance, brand alignment, and seamless functionality across desktop and mobile devices.

Network Manager Sales Inc.

UI & UX Designer / Graphic Designer

Makati City, Metro Manila
Sep 2022 - Feb 2024

- Designed and optimized user interfaces and visual assets through user research, wireframing, prototyping, and iterative testing to enhance usability and brand consistency across digital platforms.
- Collaborated with cross-functional teams to create responsive and visually engaging designs, translating client requirements into intuitive user experiences while maintaining accessibility, consistency, and modern design standards.

United Graphic Expression Corporation

Graphic Designer

Makati City, Metro Manila
Jan 2020 - Sep 2022

- Designed and executed compelling visual content using Adobe Creative Suite, enhancing brand identity and increasing client engagement by 30% at United Graphic Expression Corporation.
- Collaborated with clients and the production team to develop creative layouts, marketing materials, and print designs, ensuring high-quality visual output aligned with brand standards and project requirements.

University of the East RMMCI

IT Admin / Graphic Designer

Quezon City, Metro Manila, Philippines
Feb 2014 - Dec 2019

- Managed university IT infrastructure ensuring seamless network operations while designing impactful visual materials that enhanced institutional branding and communication.
- Provided technical support and troubleshooting for hardware, software, and network-related issues while creating engaging digital and print designs for university events, campaigns, and internal communications.
